

IoT & AI platform for intelligent assets management, **BL.Predict** efficiently processes all data to optimize your equipments' performance and lead you towards predictive maintenance.

### CONTROL YOUR COSTS

- ↘ 25% of your maintenance costs
  - ↘ 15% of your energy costs
- Organize & qualify your interventions

### OPTIMIZE YOUR EQUIPMENTS

- + 10% service life
  - + 20% productivity
- Model the system's behaviors

## TURNKEY

BL.Predict's versions addresses **the entire value chain** (sensors, networks, data, information, visualization, decision-making).

## INTERVENTION AT THE RIGHT TIME

Relevant and reliable data on equipment or machine operations, breakdown history, etc. for targeted and appropriate predictive actions.

## INTEGRATED PROCESSES

BL.Predict **stores, analyzes and transforms** the data collected by sensors, produces **dashboards**, and integrates with your processes to qualify your interventions and **secure your decisions**.

## A SOLUTION ADAPTED TO YOUR NEEDS

### SMART

**DATA PROCESSING  
ACROSS  
THE ENTIRE  
COMPONENT CHAIN**

### FACILITY

**VERTICAL  
« PLUG & PLAY »  
FOR BUILDINGS**

### EFFICIENCY

**BEHAVIOR ANALYSIS  
OF EQUIPMENT**

## 25 YEARS OF EXPERTISE

Core business in  
Enterprise Asset  
Management & Tech

## A QUALIFIED TEAM

Datascientists,  
AI designers,  
business experts
